

AVALON® WTex

Water Based Protective Coating for Textiles

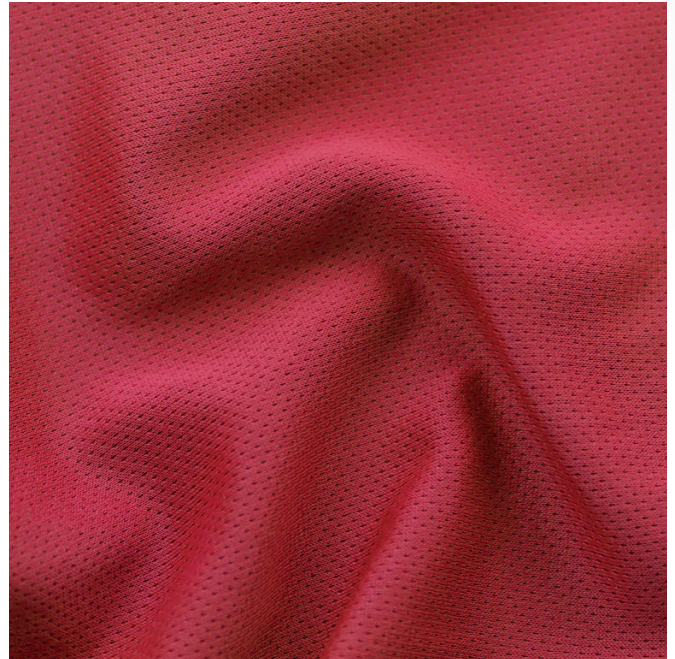

Features and technical data

Features:

- Excellent water and dirt repellency
- Invisible
- Conserves the softness of fabric

Technical data

- **Appearance:** opaque
- **Dilution:** ready to use
- **Typical consumption:** 5-10 m² / l

Composition and function

Avalon® WTex generates a very thin coating sustaining the original outlook of the surface.

The product provides a protective barrier that repels both water and oil based contaminants and allows easy removal of these soils.

Product provides durable vapor-permeable protection with no effect on appearance.

Storage

Solution should be stored at room temperature in closed containers out of the direct sunlight.

Storing time is 12 months from the date of manufacture.

Instructions for use

See MSDS before starting. Stir well before using. Surface to be treated should be clean and dry. During work please wear goggles, mask and gloves for safety.

Cleaning

The substrate has to be oil/grease- and dust-free. Surface has to be dry before coating.

Coating

Apply by brushing, spraying, dip coating or bath/mangling.

Curing

Product is ready to use after drying it 1 day at room temperature.
