

Neoxid MDS Sealers

For Thermal Spraying

Neoxid MDS Sealers are unique products developed to protect thermal spray coated parts and components from corrosion. They have excellent penetration ability and outstanding corrosion protection properties in various environments.

Neoxid MDS 210 for Ceramics

Neoxid MDS 220 for Ceramics

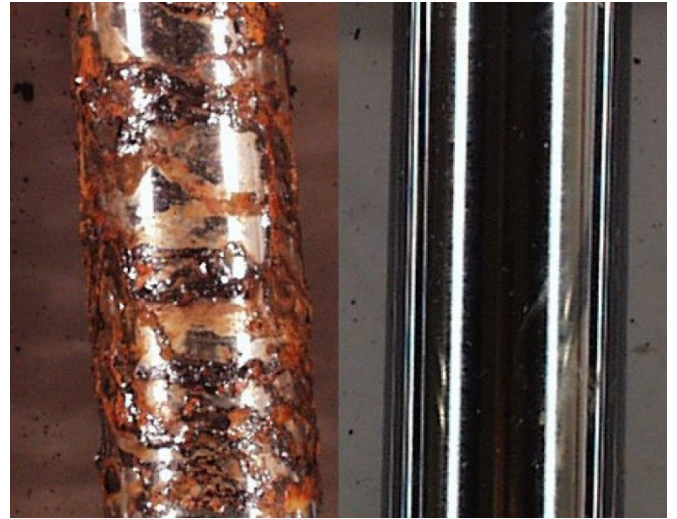

Neoxid MDS 230 for Carbides

Neoxid MDS 240 for Carbides

Neoxid MDS 250 for high temperature

Neoxid MDS HT-1 for high temperature

Neoxid MDS HT-700 for high temperature

Application examples: process industry components, printing industry rolls, boiler tubes and off-shore applications.
