

# AVALON® WTex

Water Based Protective Coating for Textiles

## Features and technical data

---

### Features:

- Excellent water and dirt repellency
- Invisible
- Conserves the softness of fabric

### Technical data:

- Appearance: opaque
- Dilution: ready to use
- Typical consumption: 5-10 m<sup>2</sup> / l

## Composition and function

---

Avalon® WTex generates a very thin coating sustaining the original outlook of the surface.

The product provides a protective barrier that repels both water and oil based contaminants and allows easy removal of these soils.

Product provides durable vapor-permeable protection with no effect on appearance.

## Storage

---

Solution should be stored at room temperature in closed containers out of the direct sunlight.

Storing time is 12 months from the date of manufacture.

## Instructions for use

---

**See MSDS before starting. Stir well before using. Surface to be treated should be clean and dry. During work please wear goggles, mask and gloves for safety.**

### Cleaning

The substrate has to be oil/grease- and dust free. Surface has to be dry before coating.

### Coating

Apply by brushing, spraying, dip coating or bath/mangling.

### Curing

Product is ready to use after drying it 1 day at room temperature.
