

AVALON[®] STex

Solvent-based Protective Coating for Textiles

Features and technical data

Features:

- Dirt repellent protection
- Invisible
- Conserves the softness of fabric
- Easy to clean

Fields of application:

- Textiles
- Carpets

Technical data

- **Appearance:** translucent
- **Dilution:** ready to use
- **Typical consumption:** 5-10 m²/l

Composition and function

Avalon[®] STex generates a very thin coating on the substrate sustaining the original outlook of the surface.

The product provides a protective barrier that repels both water and oil based contaminants and allows their easy removal.

Product provides durable vapor-permeable protection with no effect on appearance.

Storage

Solution should be stored at room temperature in closed containers out of the direct sunlight.

Storing time is 12 months from the date of manufacture.

Instructions for use

See MSDS before starting. Stir well before using. Surface to be treated should be clean and dry. During work please wear goggles, mask and gloves for safety.

Coating

Apply by spraying, dip coating or mangling.

Curing

Product is ready to use after drying it few hours at room temperature.
